

ACTION ON CLIMATE IN TEIGNBRIDGE WILDLIFE WARDENS

Would you like to help make a positive change for your local wildlife?

If you love nature and have just a little spare time, then there are lots of things you can do to help. One of those is becoming a Parish Wildlife Warden. You don't have to have any special expertise – just enthusiasm!

We provide training, information and support, whilst connecting you with other local Wildlife Wardens.

Projects our Wildlife Wardens are involved with:

- Helping create **new local habitats** by planting trees, hedges and wildflower meadows.
- Encouraging **wildlife gardening** within their parishes.
- Working with local **youth groups** to encourage a love of wildlife.
- Recording local species and **surveying** parish habitats.
- Looking out for **planning applications** that might affect wildlife.

The scheme is run by the ACTs Ecology Group, which is led by Audrey Compton. Vicky Fairs is our coordinator, who will make you welcome, answer your questions and much more!
